2015 Glass Magazine Award Winners Announced

WASHINGTON, D.C., July 7, 2015—Glass Magazine has announced the winners of the 2015 Glass Magazine Awards. The prestigious glass and metal industry awards program recognizes the best products and glass applications the commercial, retail and fabrication markets have to offer.

To determine the winners in the product and project categories, Glass Magazine submitted nominations to a panel of judges representing all segments of the glass and glazing industry. The judges then selected a winner in each category, to be featured in the July 7 edition of e-glass weekly, the July 2015 issue of Glass Magazine, and on GlassMagazine.com.

“From an architect’s point of view, innovation is alive and well. Glass and fenestration products are pushing our perception of what the building enclosure can be,” says Glass Magazine Award Judge John Stephenson, senior architect, buildings & places, for AECOM, aecom.com.

“It is clear that innovation not only continues to exist in the glass industry but it appears to be accelerating,” adds GMA Judge Terry Peterson, vice president of sales for Novum Structures, novumstructures.com.

Special thanks go to Glass Magazine Award sponsor GGI, Secaucus, New Jersey, for producing the 2015 Glass Magazine Award plaques, and to C.R. Laurence Co., Los Angeles, for supplying the hardware.

The 2015 Glass Magazine Award product and project winners are:

—more—

Most Innovative Curtain Wall or Enclosure Project

The Corning Museum of Glass Contemporary Art + Design Wing
National Enclosure Company LLC, nationalenclosure.com

Most Innovative Entrance Project

Mary Bird Perkins Cancer Center
Novum Structures, novumstructures.com
